DETAILED ACTION

Election/Restrictions

1. Applicant's election of claims 1-5 and 10 in the reply filed on 02/28/2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-5 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Fromwiller, U.S. Patent No. 5,916,964 (hereinafter "Fromwiller"). Fromwiller teaches reactive hot melt adhesive comprising a polyol, polyurethane and silane, which is ethylenically unsaturated and can participate in free
